

cuddles™

Infant Protection System

Nurses Love Our Cuddles System!

“Nurse Friendly”

- Self-Adjusting Soft Bracelet for Infants
 - Won't fall off due to post-birth weight loss
 - Eliminates cutting and chafing of the infant's skin
 - Protects & alarms in the event of removal or cutting
- "Self-Guided" Software
 - Nurses can admit/discharge patients in moments
 - Staff training is done in minutes, not hours or days
 - Simple tag activation and monitoring
- Instant Protection Tags
 - Infants are protected the moment the tag is activated
 - Easy to clean with a smooth design
 - Tags include an On/Off light for extended life

**Like a mother's
embrace, the
Cuddles System
provides the same
comfort, care
and safety.**

Part of the "Nurse Friendly" Family!

cuddles™ is part of our "Nurse Friendly" Infant Protection Systems. It lets your nurses spend more time caring for their infants and less time managing a security system!

With the Cuddles Infant Protection System, you get the affordable infant security solution you need for complete peace of mind!

Benefits

- Self-adjusting Soft Bracelet
- Simple operation
- Quick patient assignment
- No enrollment needed for instant protection
- Easy report generation
- Free on-site training
- Easy to use Windows-based software
- Reusable, easy-clean tags

Our full spectrum of upgradeable infant protection systems allows you to choose a system that fits your budget and facility. We offer you the option of corporate pricing, government, and GPO, as well as bulk pricing on select products.

All systems meet FCC, NFPA, NEC and UL requirements and are rigorously tested for performance. You'll receive superior customer service with a network of 24-hour local service providers for quick and economical service.

Your system's quality is ensured with a one-year warranty on all parts and services. In addition, you'll receive free software updates with a one-time software license fee for guaranteed performance and satisfaction.

System Features

- Bracelet removal notification
- Unique infant identification
- Tamper-proof system
- Tag supervision
- Loiter, door ajar and supervisor notification
- UL Security Listed
- Dual-conditioning door alarm monitoring
- Multiple floor monitoring capability
- Unique patient-to-floor transfer
- Alarm information with complete history
- Complete fire panel interfacing with NFPA magnetic door locks

SECURITY

LISTED
